ABOUT ME

Result-oriented IT undergraduate with a robust technical foundation in modern web architecture and artificial intelligence. Proficient in developing high-performance, responsive web applications and integrating intelligent machine learning solutions. Passionate about engineering clean, scalable, and efficient code to solve complex real-world challenges.

EDUCATION

2023 - 2027

University of the
Punjab

Bachelor of Information Technology

Maintained a 3.6 CGPA with a specialized focus on modern web architectures and software engineering principles.

2021 - 2023

FG PG college wah
cantt

FSC (computer science)

Achieved a high distinction score of 940/1100, showcasing strong analytical and mathematical capabilities.

2011 - 2021

FG public school NO 2

Matriculation

Secured 986/1100, building a primary foundation in science and technology.

EXPERIENCE

Capregsoft company

Full-Stack Developer

Successfully completed intensive professional internship in the MERN stack, engineering scalable web applications with a focus on responsive UI/UX and secure backend integration. Developed a real-time Gold Rate Tracking System, optimizing data accuracy and cross-platform performance for a seamless user experience.

Professional training

AI & MACHINE LEARNING

Completed a comprehensive Artificial Intelligence program covering machine learning fundamentals, deep learning, and practical model deployment. Developed an AI-powered malware detection system as a capstone project, demonstrating proficiency in data preprocessing, Python-based model training, and performance evaluation.

SKILLS

- MERN Stack Development
- Frontend Engineering
- AI & Machine Learning
- Version Control
- Backend & API Design
- Database Management
- UI/UX & Animations
- Analytical Problem Solving
